Megan and Barry, Could you make an image from a topographic map (perhaps two slides due to the length of river) so that I could create a .ppt slide that shows the upper Cement Creek sources, wetlands (if we can get any better verification of their presence), and fishery that are within the TDL? We will need this for the HRS Doc Rcd anyway.

Figure 1 is a good start, but does not cover the whole TDL. Let me know if this is possible and what your turn around time could be? I would like to have it by July 7 if possible.

Sincerely,

Sabrina Forrest
